### **Benefit Tour**

WASHINGTON has had a lavish dose of house tours, embassy tours, garden tours, etc., for years. But now the Women's Committee of the Corcoran Art Gallery has dreamed a new idea for the benefit of the gallery; a tour of private art collections and artists' studios.

On March 26, from 2-6 p.m., if you're interested in seeing what some of our residents have in their homes by way of rare art objects, or if you're just curious to look around somebody else's home, buy yourself a ticket and take the circuit.
